Experience:-

S-TEK IT - Full Stack / Android Development Trainer (Jan 2025 - Present)

As a Full Stack Developer Trainer at S-TEK IT Educations, I have trained 50+ students across 6+ languages (C, C++, Java, Python, MERN stack, MySQL), enhancing efficiency with AI-driven code optimization and prompt engineering. My program includes 100+ hours of Agile, CI/CD, cloud deployment, Git, and security training, along with live coding and debugging workshops for job readiness.

Skills:-

- **Programming Skills:** Basics of C, C++, Python, Java; proficiency in Android Studio; basics of MySQL.
- **Front-End Technologies:** Understanding of HTML, CSS, JavaScript, and Bootstrap; familiarity with frameworks and libraries like React.
- **Back-End Technologies:** Knowledge of Node.js, and MongoDB; understanding of RESTful APIs and web services.
- **Tools and Technologies:** Experience with version control systems like Git; basics of Microsoft Office (Word, PowerPoint, Excel) and AI Applications.
- **Language Proficiency and Personal Qualities:** Fluent in English, and highly proficient in Hindi and Malayalam; excellent work ethic; continuous learner.
